

**REMARKS**

The application has been amended to adapt the specification and claims of the underlying international application to U.S. practice. Claims 1 to 16 as presented in the underlying International Patent Application No. PCT/DE2004/001467 have been canceled without prejudice, and new claims 17 to 31 have been added.

Applicant believes that no fees are due as a result of this amendment. In the event of a fee discrepancy, please charge our Deposit Account No. 50-0552.

Respectfully submitted,

DAVIDSON, DAVIDSON & KAPPEL, LLC

**In the Abstract**

Please replace the Abstract as presented in the underlying International Patent Application No. PCT/DE2004/001467 with the following amended Abstract:

**ABSTRACT**

~~The invention concerns a~~ A vane segment and a method is provided for making manufacturing elements, namely gas turbine ~~blade vane~~ segments, in particular for an aircraft power train. ~~The invention is characterized in that each~~ Each blade vane segment comprises at least two ~~blades~~ vanes, one segment being produced by injection moulding of metal powder of several ~~blades~~ vanes. ~~The invention also concerns such a blade segment.~~
